

how?

how we met an events company nail biting deadline

The Client

A leading marketing and events agency, with an enviable reputation in their sector.

The Challenge

The company were organising an event in Poland and needed some additional printed material - trouble was they needed in Poland the **SAME DAY!**

The Solution

With no time to waste, we did not pause and put the kettle on! We sourced a high quality digital printer that was based in Poland, thoroughly vetting them to ensure their credentials and equipment matched the spec for the job.

The artwork was emailed to them and the job was printed and delivered to the client at 5pm the **same** day.

- **Rapid same day turnaround**
- **Delivered direct to client in Poland**
- **High quality print**
- **Within budget**

The result

The deadline was met, to the client specification and the event went ahead without a hitch. Whilst this is not a regular occurrence it shows that when we have to pull out the stops we really do go the extra mile, crossing continents if necessary!
